

# Team Canvas

Version 0.8 | theteamcanvas.com | hello@theteamcanvas.com

Most important things to talk about in the team to make sure your work as a group is productive, happy and stress-free

Team name

BLONDE SUNSHINES

Date

25/4/ 2019

## PEOPLE & ROLES

**Barbora Krajnikova** - coding & content

**Kerttu Timonen** - coding & content

**Sara Vlckova** - design, organization

**Michał Jaworski** - design, organization

What are we called as a team?

It is written above. Blonde Sunshines. All of us are blonde and shine bright like a sun all day long, except the ones when we are hungry or tired.

## COMMON GOALS

- create valuable project
- have fun
- get new experience and knowledge
- improve team working and the whole skill set

## VALUES

Our value is an ability to create a clear and meaningful message using simple desing. The main principle in this case is to make a smart, communicating and useful tool for our users.

## RULES & ACTIVITIES

- start every new part with brainstorming and know opinions of all members.
- have set of clear goals.
- keep schedule.
- respect each other and make compromise.
- write every important information in one shared document, so all of us are updated.
- organizing frequent personal meetings to talk about the progress, challenges and dividing tasks.

Otherwise, communicating through shared document (e.g. google docs), messenger and simply by calling each other.

## PERSONAL GOALS

**Barbora Krajnikova:** I want to impove coding & programming skills.

**Kerttu Timonen:** I would like to get better at coding and creating a meaningful content.

**Sara Vlckova:** My goal is to create good design and become a better leader.

**Michał Jaworski:** I want to grow as a designer and develop my organization skills.

## PURPOSE

Help CPH visitors to feel more comfortable before the first ride, cause all of us know how confusing it can be.

## NEEDS & EXPECTATIONS

We, as a team, need to keep good communication, trust and belief in becoming the best version of ourselves as a coders, designers and simply - human beings.

We expect from each other to be focus, respectful and pro-active.

## STRENGTHS & ASSETS

Each of us is covering the required skills for this assingment. When it comes to coding, we know how to put our brains together in order to get stuff done. Then, the design tasks are being covered by two designers: Michal and Sara. Besides that, our group members have already an experience coming from our workplaces or interns. We know how to do marketing, develop a nice website with a grasp o JavaScript and create some aesthetically pleasing content.

Barbora is great at problem solving, Kerttu knows how to manage our group with her honesty, Sara is able to deal with tasks, which rest of the members cannot, while Michal our god of drawing and designing.

## WEAKNESSES & RISKS

Our weakness is definetely dealing with our work schedules. This factor can become really challenging for us, but we already know how to deal with it and have solutions for this. We are respecting the fact that all of us have some student job and we do not complain about that.

The only thing which we see as an obstacle is mentioned above: schedule and time managment.
